

County Appendices by District

New Mexico has 33 counties that are grouped into 14 judicial districts. These appendices provides county level data for key topics found in the main body of the FY22 Juvenile Justice Services (JJS) Annual Report. The county profiles are grouped by district number. County level data is presented by referral type [delinquent, probation violation, and status referral (non-delinquent)], by gender, age, race/ethnicity, action taken/disposition, and top offenses. In addition, there is information on case processing time, minors in possession/driving while intoxicated (MIP/DWI) offenses, probation violations for alcohol/drugs, juvenile probation officer (JPO) workload, and admissions to juvenile facilities. For background, the following table provides statewide data on both the number of referrals and the number unduplicated number of youth with a referral, by referral type.

Number of referrals and number of unduplicated youth with a referral, by referral type, Juvenile Justice Services, New Mexico FY22

Referral type*	Referrals		Unduplicated youth with a referral	
	Number	Percent	Number	Percent
Delinquent	4,521	80.22%	3,596	80.50%
Probation violation	931	16.61%	801	18.01%
Status (non-delinquent)	186	3.17%	70	1.49%
Total	5,638	100.00%	4,467	100.00%

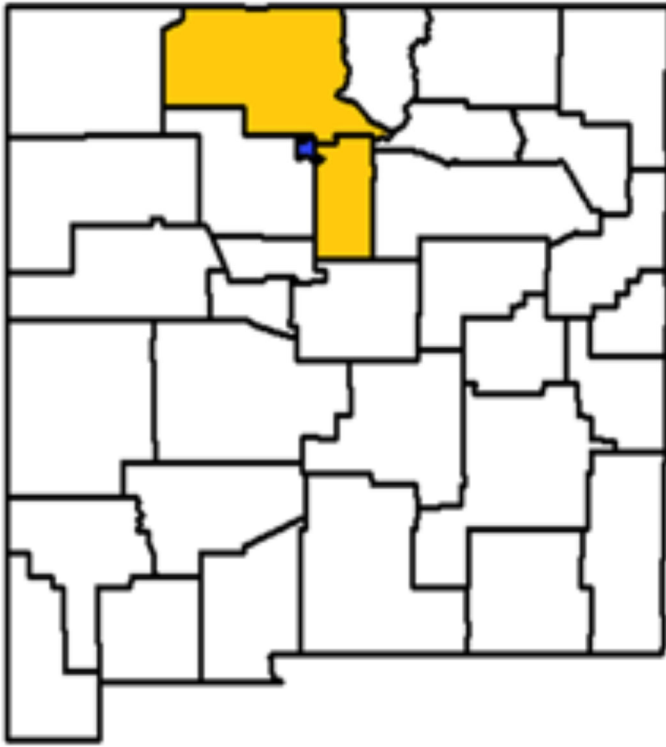

*Total accrued offenses in FY 2021 was 3,899.

**Youth may appear more than once if they have referrals in multiple counties. Youth may have also accrued more than one type of referral during FY 2021.

Keeping in mind that a client may have had multiple offenses per referral, the total accrued offenses in FY22 was 8,504. The most serious charge determined if a referral was processed as a delinquent, probation violation, status (non-delinquent) referral. Overall, there were 5,638 referrals involving 4,467 unduplicated youth.

In the county totals, youth may appear more than once if they have referrals in multiple counties or if they have more than one type of referral. For example, Jane Doe had two delinquent referrals, one is from Curry County and the other is from Roosevelt County. She would be counted twice, once for each county's referral total. In another example, John Doe had two referrals in FY00, one was a delinquent referral and the other was a probation violation referral. Therefore, he would be counted once in the delinquent referral total and once in the probation violation referral total.

The reader is encouraged to refer back to key sections of the FY22 JJS Annual Report for clarification and assistance on definitions and methodologies used to collect the data included in the County Appendices.

District 1: Los Alamos County

	Los Alamos County	New Mexico
Estimated population 10-17 years old, 2020 [*]	2,091	222,418
Percent of state's total children 10-17 years old, 2020 [*]	0.9%	100.0%
